# LOCKTON FINANCIAL ADVISORS, LLC

## Notes to Financial Statements

April 30, 2016

### (1) Nature of Operations

Lockton Financial Advisors, LLC (the Company), a subsidiary of Lockton Insurance Agency, Inc. (Lockton), was organized in the state of California on April 27, 2005. The Company is a limited liability company approved to conduct business as a registered broker-dealer in securities under the Securities Exchange Act of 1934. The Company is a k(1) exemptive status stand-alone broker-dealer, operating as a limited broker-dealer on its own behalf and is enabled to conduct securities activities, which may include the sale of variable contracts and mutual funds through employee benefit plans. The Company does not maintain custody or receive customer funds or securities; customer accounts are held by plan vendors. Furthermore, the Company does not maintain a clearing arrangement with any firm and handles individual accounts on an application-way basis direct with the fund company or carrier. The Company is registered with the Municipal Securities Rulemaking Board (MSRB). This membership allows the Company to participate in a limited capacity only dealing in qualified college savings plans. In addition, the Company is a member of the Financial Industry Regulatory Authority (FINRA), and the Securities Investor Protection Corporation (SIPC) and is subject to the rules and regulations of each agency.

The Company is a subsidiary of Lockton, with Lockton (Corporate Member) owning the Corporate Profit Unit (Corporate Unit). The associates who have the primary responsibility for establishing new client relationships (Producer Members) own the Producer Profit Units (Producer Units). The Producer Members derive their compensation from the profits of the Company after providing a predetermined allocation of profits to Lockton as the holder of the Corporate Units. While the legal form of payments to Producer Members is a capital distribution, the Company reflects such payments in the statement of operations as selling expenses. Profits of the Company used to determine Producer Member compensation (Producer Profit Return) generally represent revenue less selling and general and administrative expense.

### (2) Summary of Significant Accounting Policies

#### (a) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

#### (b) Revenue Recognition

The Company's revenue comprises principally of commissions paid by the plan vendors, fees paid directly by clients, and interest income. Commission revenue from plan vendors generally represents a percentage of the fair value of the plan assets held on account by the customer and is materially affected by fluctuations in the fair value of the assets in the plan. Commissions received directly from the plan vendor are recognized when fees are earned and realized or realizable. A cancellation reserve is recognized for commissions that are subject to chargeback and is estimated based on historical chargeback rates. This reserve is recorded in commissions and fees revenue on the statement of operations.

Contingent commissions may be paid to the Company by insurance carriers based on retention of clients and the volume of business placed with or through such insurance carriers related to

**LOCKTON FINANCIAL ADVISORS, LLC**

Notes to Financial Statements

nonsecurities-based insurance products. Contingent commissions are recognized when earned and realized or realizable. In 2016, contingent commissions represented less than 1% of total revenue.

Fees paid directly by clients and interest income are recognized as earned and realized or realizable.

**(c) Cash and Cash Equivalents**

The Company considers all liquid investments with original maturities of three months or less to be cash equivalents. At April 30, 2016, cash and cash equivalents consisted of a commercial checking account and a money market mutual fund.

**(d) Producer Members Receivable and Payable**

Producer Members receive advances throughout the year based upon estimated annual Producer Profit Return as defined in the Company's operating agreement. At the end of each fiscal year, each Producer Member's Producer Profit Return is adjusted to the actual amount earned based on the economic performance of the Company. This adjustment results in some Producer Members having a debit balance in their capital account as a result of an over distribution and other Producer Members having a credit balance in their capital account resulting from the actual Producer Profit Return exceeding distributions made throughout the year. These amounts due from/to Producer Members are reflected as Producer Members receivable or payable, respectively, in the balance sheet.

**(e) Income Taxes**

The Company is considered a "pass-through" entity under the Internal Revenue Code and, therefore, does not pay federal corporate income taxes on its taxable income. Instead, income is reported on its members' federal income tax return. Accordingly, no income taxes have been recorded in the financial statements for the year ended April 30, 2016.

**(f) Fair Value of Financial Instruments**

Under existing authoritative accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. At April 30, 2016, the carrying amounts of financial assets and liabilities reported in the accompanying balance sheet for cash and cash equivalents approximate fair value because of the short-term nature of these financial instruments.

Authoritative accounting guidance emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure

**LOCKTON FINANCIAL ADVISORS, LLC**

Notes to Financial Statements

April 30, 2016

these fair values into the following hierarchy as defined by current authoritative accounting guidance:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are inputs that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

**(3) Producer Unit Purchases**

In exchange for certain restrictive covenants and other considerations from Producer Members, the Company has the option to purchase each Producer Member's Producer Unit upon his/her termination.

The agreement to purchase the Producer Members' interest is applicable to all Producer Members and valued based on 25% of the Producer Members' average annual revenue for the preceding three fiscal years and change in value of the Company for the final six months of membership.

The purchase is subject to put and call features and is only mandatory upon the death or permanent and total disability of a Producer Member. The Producer Unit meets the attributes for equity classification and, accordingly, is reported as a noncontrolling interest and displayed as a separate component of equity in the balance sheet with the related expense recognized in the statement of operations.

Once exercised, the purchase obligation is no longer subject to the attributes of equity ownership and, thus, is reclassified from a component of equity to a liability. For the five-year period that payment of the obligation is being made, the Company and the Producer Members have agreed that such payments will be funded through a charge of 50% of the purchase obligation to the profits attributable to the Producer Members. However, as future profits of the Company are not guaranteed, U.S. generally accepted accounting principles do not allow for the establishment of a receivable from the future profits attributable to Producer Members. Consequently, despite its belief that only 50% of the cost of purchasing Producer Members' interest will be funded from profits attributed to the Corporate Unit, the Company has provided a noncontrolling interest and related expense as if it will solely fund the Producer Unit purchase.

Producer Unit activity within noncontrolling interest during the year ended April 30, 2016 is as follows:

Balance, April 30, 2015	\$	2,725,133
Producer Unit purchases		(186,509)
Producer Unit expense		(650,400)
Producer Member capital contributions, net		<u>(1,200)</u>
Balance, April 30, 2016	\$	<u><u>1,887,024</u></u>

**LOCKTON FINANCIAL ADVISORS, LLC**

Notes to Financial Statements

April 30, 2016

The liability for Producer Unit purchases had the following activity during the year ended April 30, 2016:

	<u>Producer Unit purchases</u>
Balance, April 30, 2015	\$ 4,931
Producer Unit purchases	186,509
Payments	<u>(122,609)</u>
Balance, April 30, 2016	<u>\$ 68,831</u>

Because the Company intends for this purchase to be an end-of-career transaction between the Company and the Producer Member, it does not anticipate significant cash requirements in the near term. Committed future payments at April 30, 2016 resulting from terminations and retirements are as follows:

Year ending April 30:	
2017	\$ 53,271
2018	4,507
2019	4,507
2020	3,274
2021	<u>3,272</u>
Total	<u>\$ 68,831</u>

**(4) Transactions with Affiliates**

The Company receives administrative services from an affiliated entity. These shared services include, but are not limited to, general executive management, general legal counsel, treasury, tax, financial accounting, and various other support functions. Fees paid for these services were \$390,556 for the year ended April 30, 2016. These charges are an allocation of costs incurred by the affiliated entity to provide such services and are accounted for in accordance with agreements among these parties.

The Company's Producer Members receive office accommodations, clerical services, and customer account service support from affiliated entities. These expenses totaled \$3,730,575 for the year ended April 30, 2016. These charges are an allocation of costs incurred by the affiliated entities to provide such services and are accounted for in accordance with agreements among these parties.

At April 30, 2016, the Company had a net payable to affiliates of \$389 for payments made in the ordinary course of business on behalf of the Company by its affiliates.

**LOCKTON FINANCIAL ADVISORS, LLC**

Notes to Financial Statements

April 30, 2016

These transactions with affiliates are accounted for in accordance with agreements among these parties. There can be no assurance that such transactions would have occurred under the same terms and conditions with an unrelated party.

**(5) Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), and treated as a registered broker-dealer, which requires the maintenance of minimum net capital defined as the greater of \$25,000 or a ratio of aggregate indebtedness to net capital. As of April 30, 2016, the Company had net regulatory capital of \$1,443,943, which is \$1,337,052 in excess of required net capital.

**(6) Subsequent Events**

On May 1, 2016, the Company reorganized from California to Missouri and, as such, is now a Missouri limited liability company and its Corporate Member, Lockton, converted from a qualified S-Corporation in Missouri to a Missouri limited liability company.

The Company has evaluated subsequent events from the balance sheet date through June 27, 2016, the date at which the financial statements were available to be issued, and determined there are no other items to disclose

2. Compared the amounts reported on the audited Form X-17A-5 for the year ended April 30, 2016, as applicable, with the amounts reported in Form SIPC-7 for the year ended April 30, 2016 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences;
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed noting no differences, if applicable.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
